OBJECTIVE

Detail-oriented Software Developer with professional experience in full-stack development, specializing in Python, Django, and React.js. Skilled in building scalable backend APIs, dynamic front-end interfaces, and integrating real-time features. Passionate about delivering high-quality, user-friendly applications and continuously learning new technologies. Strong collaborator with a problem-solving mindset and experience working in agile teams.

EDUCATION

Harcourt Butler Technical University (HBTU)

Kanpur, Uttar Pradesh, India

Master of Computer Applications (MCA); CGPA: 7.8

2022 – 2024

Maharshi Dayanand University (MDU)

Rohtak, Haryana, India

Bachelor of Computer Applications (BCA); Percentage: 69%

2018 – 2021

TECHNICAL SKILLS

Programming Languages: Python, JavaScript, C++ , C

Frontend Development: React.js, Redux, React Hooks, Tailwind CSS, Bootstrap, CSS, HTML

Backend Development: Django, RESTful APIs, Token Authentication

Databases: MySQL, PostgreSQL, MongoDB

API Development & Testing: REST APIs, FastAPI

Software Tools: VS Code, Postman, PyCharm, MySQL Workbench, Git, MS Excel, MS Word, PowerPoint

Version Control: Git, GitHub

Soft Skills: Strong Problem-Solving, Analytical Thinking, Collaboration, Communication

WORK EXPERIENCE

Software Developer (Product Development)

Oxygen to Innovation (O2i), Noida

May 2025 – Present

- Building interactive simulation tools and game-based applications tailored to specific domain requirements.
- Creating and testing early-stage prototypes to validate core functionality and user experience.
- Showcasing features and capabilities to stakeholders for feedback and alignment.
- Ensuring performance, reliability, and usability through thorough product testing cycles.
- Working on real-time networking features using WebSockets for enhanced user interaction.

Full Stack Developer Intern

TechAhead Software, Noida

July 2024 – Jan 2025

- Focused on backend development using Python, Django, and SQL for building scalable APIs and handling data storage.
- Collaborated with frontend developers to ensure smooth integration between the backend and UI components.
- Contributed to building dynamic user interfaces using HTML and CSS.
- Actively participated in code reviews and agile team discussions to deliver high-quality software solutions.

PROJECTS

- **Social Media Backend (Aug 2024):** Developed the backend for a social media application using Django. Implemented secure user authentication, tagging, blocking, and a real-time notification system. Integrated temporary account deletion with reactivation logic and scheduled permanent deletion. Used Django ORM with MySQL for efficient data handling. [GitHub](#)
- **Random GIFs Generator (Apr 2024):** Built a web app in React that fetches and displays random memes from an external API. Emphasized quick loading, smooth UX, and used React Hooks for dynamic UI updates. [Try it!](#)
- **E-commerce Website (May 2023):** Designed and developed a clothing e-commerce platform. Implemented shopping cart functionality, discount systems, and responsive layout using HTML, CSS, and JavaScript. [Try it!](#)

CERTIFICATES

- **Job Ready Bootcamp in C++ & DSA** — iNeuron (Apr 2023): C, C++, data structures, and problem-solving techniques using C++.
- **Web Development Certification** — Udemy (Mar 2023): Hands-on experience with HTML, CSS, and JavaScript.
